The time period for reply, if any, is set in the attached communication.

Office Action Summary	Application No. 10/820,642	Applicant(s) LOVETT ET AL.	
	Examiner Kennedy J. Schaetzle	Art Unit 3766	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claims 1, 2, 4-6, 8, 13, 14-16, 18-22, 24-26, 28-38, 40-42, 44, 47-51, 53-55, 57 and 60-62 are rejected under 35 U.S.C. 102(e) as being anticipated by Wagner et al. (Pub. No. 2004/0172066).

3. The applied reference has a common inventor with the instant application. Based upon the earlier effective U.S. filing date of the reference, it constitutes prior art under 35 U.S.C. 102(e). This rejection under 35 U.S.C. 102(e) might be overcome either by a showing under 37 CFR 1.132 that any invention disclosed but not claimed in the reference was derived from the inventor of this application and is thus not the invention “by another,” or by an appropriate showing under 37 CFR 1.131.

Regarding claim 1 and the rate at which asystole prevention therapy is delivered, see pars. 0013, 0095, etc.. Related comments apply to claims with similar limitations. Regarding the use of the recited patient-external communications device and display for displaying received data, see pars. 0044 and 0064. A communication device such as an external programmer would necessarily have a display in order to convey information

to the physician so as to allow proper modification of pacing/defibrillation parameters.

Regarding claim 6 and claims with similar limitations see par. 0106.

Regarding claim 15 and claims with related limitations, par. 0107 discloses that *if necessary*, a third pacing pulse would be issued upon detecting non-termination of asystole. A therapy sequence not requiring a third pacing pulse then necessarily involves no more than ten pacing pulses.

Response to Arguments

4. The applicant's response has effectively eliminated the rejection under 35 USC §103 based on a §102(e) using the Wagner et al. reference, but cannot be used to eliminate a 35 USC §102 rejection.

Allowable Subject Matter

5. Claims 3,7,23,27,39,43,52,56 and 63-66 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the

Art Unit: 3766

shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
